

National Firms Partner with BOMA Canada

BOMA Canada is pleased to announce that the Hurley Group of Companies and SNC-Lavalin ProFac have signed on as Gold Members of BOMA Canada's new National Partnership Program (NPP), launched earlier this year.

"In demonstrating commitment to this program, both SNC-Lavalin ProFac and Hurley are providing generous support which will greatly enhance our ability to continue to deliver value to the commercial real estate industry in Canada, both to BOMA members and to non-members," says Esther Paterson, President of BOMA Canada.

The NPP was initiated to provide an opportunity for organizations to significantly enhance their profile and to effectively communicate their corporate message to the commercial real estate industry while supporting the objectives and initiatives of BOMA Canada.

Projects such as the BOMA Go Green Environmental Certification program, the National Pandemic Planning Task Force, BOMEX[®], the BOMA Canada National Awards, and many initiatives envisioned for the future, are successful examples of BOMA Canada's activities aimed at delivering value to, and facilitating communications among its more than 2,500 members and the industry. BOMA Canada also develops advocacy programs, provides opportunities for collaboration and networking, and promotes excellence throughout the commercial real estate industry.

Sincere thanks are also extended to BOMA Canada's Silver Partners, Bentall Real Estate Services LP, GWL Realty Advisors, Imperial Parking Corporation, Litemor /Home Depot, and PCL Constructors Inc. The Bronze level partners include Halsall & Associates, Cadillac Fairview Corporation, Carma Industries Inc., the IRC Building Services Group, the BOMI Institute Canada, Jacques Whitford, Arcturus Realty, and Aecon Buildings.

Several partnership opportunities still exist. Interested firms are invited to contact BOMA Canada to obtain further details (613) 788-3787, or visit the BOMA Canada web site at www.bomacanada.ca.
